

# Why Track your Fleet?

You can't manage what you don't measure. Nothing is more true when discussing a business with a commercial fleet. Waste and inefficiencies come in many forms including:

- Excessive idle times
- Poorly developed driving routes
- Unauthorized vehicle use
- Late starts
- Excessive lunch breaks
- Gasoline theft
- Moonlighting
- Speeding and other unsafe driving practices
- Exaggerated timesheets

## GPS Fleet Tracking

A Product of Brandon  
Communications Inc.

# GPS Fleet Tracking

The GPS Fleet Tracking system allows users to effortlessly and in real-time locate their fleet, commercial vehicles, trailers, equipment and other assets.

Our easy-to-use web based interface functions on 1, 2 or 5 minute update rate plans allowing you to continuously monitor your fleets locations, speed, stop times and other activities. It also offers daily, weekly and monthly reporting and dispatching functions all designed to increase efficiencies and help reduce costs by reducing fuel consumption and maintenance expenses.

## With GPS Fleet Tracking, you can...

- know vehicle location and routes, by detailed color map, satellite image and address.
- view online reports.
- set up alerts to be sent to you via text or email.
- call us, a local provider, for support.

## System Features

- Web-based interface
- Minute-by-minute tracking
- Historical data up to six months
- Detailed map or satellite images
- Reports
- Alerts sent via e-mail/text
- Manage multiple corporate sites by defining vehicle groups

## Reporting

We offer the industry's most effective and efficient reporting. With over a dozen reports offered, your fleet's information is available within seconds. Below are a few examples:

- Mileage report
- Engine hours report
- Start/stop report
- Maintenance needed report
- Idle time report
- Location history report
- Speed report

## Alerts

We also offer numerous types of alerts that can be sent to you by text or e-mail. Users have the option to utilize the following alerts:

- Speed
- Geofence boundaries
- Unauthorized movement
- Inputs
- Idle
- Odd hour
- Stop
- Maintenance
