

# Wireless Internet Landlord Approval Form

**Renter's Name:** \_\_\_\_\_

**Street Address:** \_\_\_\_\_

**City, State, Zip:** \_\_\_\_\_

## ATTENTION LANDLORD:

The section below is to solely be filled out by the landlord. Completing and signing this form constitutes consent for Gardonville to install wireless internet at the address provided above using the procedure listed below.

**The install will consist of the following:**

- The technician will determine the best antenna location based on signal levels.
- The technician will install an appropriate antenna mount. Antenna mounts consist of the following types: standard satellite dish mount, 3' satellite dish mount or tripod with either a 5' or 10' mast. The technician will then secure the mount using lag bolts wrapped with tar tape and seal the holes to prevent moisture seepage.
- The technician will run a cable from the antenna, down the roof, into the home and secure the cable with self-sealing screw-in cable clips. The entrance hole is typically 3/8" in size and sealed with a silicon sealant.
- A cable is routed to a modem (that we supply) in the house. The modem is typically placed next to the computer or in the utility room of the house, depending on the layout of the building and ability to place and secure cables.

**Landlord's Name:** \_\_\_\_\_

**Mailing Address:** \_\_\_\_\_

**City, State, Zip:** \_\_\_\_\_

**Phone:** \_\_\_\_\_

**Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

In addition, if you would like Gardonville to be the exclusive internet provider at this location we can leave the antenna and roof mount attached to the home when your tenant's service ends. Please also sign below if you would like to pursue this option.

**Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

Please feel free to contact our office if you need further information or have questions or concerns.
